SUMMARY

Full Stack Developer with 2+ years of experience in Angular, ASP .NET Core, Node and Express JS and PostgreSQL. Proven track record in designing and optimizing complex applications, coupled with a passion for innovation. Adept at driving software development excellence and eager to contribute expertise to top-tier organizations.

EXPERIENCE

Ernst & Young LLP   **January 2022 - Present, Gurugram, Haryana.**
Senior Analyst: Full Stack Developer

- Programmed and optimized critical components in Angular TypeScript, enhancing application performance and resolving user-reported issues, contributing to streamlined user experiences in a pharmaceutical R&D project.
- Developed efficient PostgreSQL database functions, ensuring data retrieval for ASP.NET Core Web API, resulting in standardized and computed data access for improved backend operations in the pharmaceutical domain.
- Conducted user-focused testing, aligning the application with end-users' perspectives, and delivering enhanced functionality and reliability to support pharmaceutical research for a Pharma Company.
- Spearheaded the implementation of industry best practices in C# ASP.NET Core Web API development, leading to the creation of a standardized codebase that facilitated collaboration and maintenance in a pharmaceutical R&D context.
- Collaborated with cross-functional teams to identify and rectify software bugs promptly, ensuring a streamlined development process and a more efficient software development lifecycle for pharmaceutical projects.

Krishworks Technology & Research Labs Pvt. Ltd.   **September 2021 - December 2021, Remote.**
PHP Developer

- Pioneered the development of a Typeform Webhook Plugin for WordPress, utilizing Webhooks and PHP to automate the seamless transfer of data from Typeform forms to our WordPress plugin, streamlining data integration and enhancing user experiences.
- Innovated a user-friendly CSV import plugin, simplifying the management of user data by effortlessly importing it into the WordPress site's CPanel, resulting in streamlined user administration processes.
- Demonstrated a commitment to quality by conducting rigorous testing and debugging of plugins, ensuring precise functionality and alignment with project requirements, ultimately delivering user-centric solutions.

PROJECTS

R&D Workbench (Angular, ASP.Net Core Web API, PostgreSQL, Azure DevOps)

Ernst & Young • January 2022 - Present

- Engineered a cutting-edge R&D application with advanced data analytics tools, empowering pharmaceutical companies to gain insights, make data-driven decisions, and expedite new product development.
- Designed a flexible workflow management system, enabling users to customize processes for efficient project execution and adaptability to evolving research needs.
- Developed an integrated collaboration hub, promoting seamless communication and document sharing among research teams, fostering cross-functional collaboration, and boosting productivity in pharmaceutical R&D.
- Employed Apache Superset for comprehensive data analysis, enhancing the R&D application's capabilities in visualizing and exploring complex datasets, further empowering pharmaceutical companies to make informed decisions and drive innovation.

Recipe Store and Shopping List (Angular, Firebase)

- Developed a Recipe Store and Shopping list Web Application using Angular on Front-end and Firebase Database and Authentication for the login purpose.
- Registration of New User and Storage of Data into the Firebase DB.

EDUCATION

Masters of Computer Application

Chandigarh University: IDOL • Chandigarh, Punjab. • 2023

Bachelors of Computer Application

Trinity Institute of Professional Studies • Dwarka, Delhi • 2021

SKILLS

Angular, PrimeNG, PostgreSQL, ASP.Net Core C#, Node JS and Express JS, React, Mongo DB Azure DevOps, Docker, GitHub, Python.
